EX-STATE CHAIRMAN FAVORS M. H. JUSTICE.

Card to North Carolina Voters Urging Distinguished Democrat for Chief Justice of Supreme Court.

[*Special Star Telegram.*]

RALEIGH, N. C., May 31.—Jas. H. Pou, Esq., ex-Chairman of the Democratic Executive Committee, is out in a card in favor of Michael Hoke Justice for Chief Justice of the Supreme Court. He says among other things: "The five hundred Democrats in New Hanover, who voted for Judge Justice against Judge Clark point to a method by which we, who think Clark ought not to be nominated, may express our opposition within party ranks. We can voice our disapproval of Clark's candidacy by voting in the primaries for Judge Justice for Chief Justice. We will then have expressed our feelings, and if a majority is for Judge Clark, we will vote for him at the November election.

"It is important that all Democrats attend primaries; they are the life and strength of the party. Our New Hanover friends have marked the way whereby all Democrats can attend and take part without having smother feelings; it is well for the party and well for the nominees of the party, whomsoever they may be, if their example be generally followed. New Hanover Democrats pointed out a way, and named the man, Judge Michael Hoke Justice."

Mr. Pou pays a high tribute to Judge Justice and says Justice stands for every good cause Judge Clark stands for and has none of Clark's weak points. He is a veteran of the civil war, a man deep in religious feelings, a lawyer of ability, an upright impartial judge, a man of experience and broad view, a Democrat, whose Democracy has never wavered.

Mr. Pou points out that the plan of organization forbids instruction if there is any opposition but explains decision of delegates. He says Justice is not a candidate and has not even consented for his name to be used. This being true, he will not be asked to consent. He will pursue the even tenor of his way, holding courts at his position in the Spring. His friends will vote for him of their own volition as an expression of their opinion of his fitness for the place.

We are right, let us stand up and be counted. Votes we cast, we will never regret. The future will vindicate their wisdom.

COUNTY CONVENTION.

Democrats of New Hanover Yesterday Ratified Action of Their Primaries.

MEETING WAS HARMONIOUS.

Resolutions Commending Hon. Jno. D. Bellamy and Endorsing Rodolph Duffy, Esq., for Solicitor—Executive Committee Organized.

The New Hanover County Democratic Convention met yesterday at noon in the Court House, 67 delegates out of 119 having been present and every ward, precinct and township in the county having been represented.

Mr. Marsden Bellamy was called as temporary chairman and Capt. J. M. McGowan and representatives of the press were requested to act as secretaries. After roll call of delegates the chairman declared the convention ready for permanent organization and Mr. Jesse Wilder nominated Mr. H. C. McQueen for permanent chairman and the nomination received several seconds. Mr. Walter P. Gafford in a very complimentary speech, nominated Mr. Marsden Bellamy, and that nomination was like wise seconded by several. Mr. Bellamy, however, declined the honor and Mr. McQueen was elected unanimously by acclamation, Messrs. N. N. Davis and W. P. Gafford escorting him to the chair. The election of the secretarial force was made permanent.

Mr. McQueen very gracefully thanked the convention for the honor conferred and confidence imposed in his election as chairman. He stated the object of the meeting and awaited its pleasure.

Maj. W. H. Bernard called attention to the necessity of an organization of the precinct executive committees and the election of a chairman of each, who would be *ex-officio* a member of the County Executive Committee.

The ratification of the action of the primaries was next taken up and Mr. M. Newman moved the nomination of Mr. Frank H. Stedman as sheriff. The nomination was made unanimously and Messrs. Bernard, M. O'Brien, Marsden Bellamy, Timothy Donlan and Judge E. K. Bryan suggested the propriety of ratifying the action as a whole, naming the county officials who received majorities. The nominees of the primary were then declared unanimously the nominees of the convention.

James A. Jordan was declared the nominee for constable in Harnett township, upon the presentation of the vote by Messrs. Gerritt Walker and Sol. J. Jones.

Upon motion of Maj. Bernard, the chairman was empowered to appoint within two weeks delegates to the State, Congressional, Senatorial and Judicial conventions, the delegations to include friends of the several candidates in proportion to the vote received in the primary, according to the Democratic plan of organization. To the State Convention which meets at Greensboro, July 16th, there will be 20 delegates and 20 alternates. Of these Clark, for Chief Justice, will be entitled to eleven and a fraction, Justice to eight and a fraction. The other candidates will also receive the vote in proportion to their support in the primary. To the Congressional Convention in Fayetteville, Aug. 20th, and the Senatorial and Judicial conventions, yet to be called, New Hanover will be entitled to 59 votes to each and 59 alternates.

Only a solicitor is to be nominated by the Judicial Convention and in the absence of a ticket at the primary last week, the county convention yesterday unanimously endorsed Rodolph Duffy, Esq., of Onslow, for that office upon motion of Marsden Bellamy, Esq., who prefaced the following resolution with a strong and exceedingly graceful speech in Mr. Duffy's behalf:

"This convention recognizing the unswerving integrity and eminent qualifications of Rodolph Duffy, Esq., the present solicitor of this district, hereby endorses him for re-election and instructs the delegates from this county to cast the vote of New Hanover for him at the approaching convention of this judicial district."

The resolution was adopted unanimously.

Mr. D. J. Fergus then offered the following, which was seconded simultaneously by several and unanimously adopted with much enthusiasm:

"The Democratic party of New Hanover county in convention assembled hereby endorse and approve the distinguished course of Hon. John D. Bellamy in the Congress of the United States, and it is with special pride that the convention presents him to the Congressional Convention of the Sixth Congressional District for renomination.

"He has been ever alert not only to the material interests of North Carolina but also to her fair name as a great commonwealth. No representative has reflected more credit and honor on his State, and his able and honorable career has been a source of gratification to his friends and constituents."

Capt. J. M. McGowan spoke very enthusiastically on the motion and was warmly applauded.

Geo. H. Howell, Esq., said that it had been overlooked that New Hanover had endorsed Mr. Geo. H. Bellamy for the State Senate, and he thought the convention should take some cognizance of it.

Mr. M. Newman said that while he was in favor of Mr. Bellamy, and Mr. Bellamy would probably be the nominee of the district, it was Brunswick's time to name the Senator, and New Hanover should keep "hands off." The action of the primary was, however, ratified unanimously.

Upon motion of Junius Davis, Esq., the thanks of the Convention were tendered by a rising vote to Chairman McQueen for his courtesy and ability in presiding. The convention then adjourned sine die.

The New County Executive Committee.

Immediately after the convention a majority of the precinct executive committeemen, chosen in the primary, met and organized by electing one of their number chairman, who became *ex officio* a member of the County Democratic Executive Committee. The new county committee met subsequently in the grand jury room of the Court House, with seven out of eleven precincts represented, as follows: Second ward, J. G. L. Gieschen; Third ward, Geo. L. Peschau; Fourth ward, W. A. Willson; Fifth ward (second division), J. M. McGowan; Cape Fear township, W. H. Shearin; Harnett township, W. F. Alexander; Masonboro township, D. J. Fergus. Three precincts of the First ward and one in the Fifth did not organize and consequently were not officially represented.

Geo. L. Peschau, Esq., was unanimously chosen chairman of the County Committee; J. M. McGowan secretary, and J. G. L. Gieschen treasurer.

EDUCATIONAL RALLY YESTERDAY.

School Committeemen Enjoyed Addresses and Pledged More Faithful Work.

The educational rally of county school committeemen, arranged by Superintendent Catlett and held yesterday morning at 10 o'clock in Cape Fear Academy building, was a pronounced success both in point of attendance and nature of the work accomplished. Every district was represented; some of them by a full committee, and the hour was delightfully and profitably spent.

Col. A. M. Waddell was present by invitation and upon his introduction by Prof. Catlett he responded in a timely address, which was heartily enjoyed. Prof. Catlett also made an interesting talk in which he read and explained from the School Law those sections which pertain to the duties of committeemen. The roll call of districts was had and representatives from each made encouraging reports and pledges for more faithful efforts in the future.

Mr. W. H. Sprunt, member of the County Board of Education, was present and made a neat little address, which was followed by remarks by Mr. W. M. Cumming. Mr. W. H. Northrop, chairman of City School Committee No. 2, was also present and lent his encouragement to the movement.

Grand Lodge Meeting.

Linden Grove No. 2, U. A. O. Druids, of this city, elected at its last meeting S. H. Fishblate and A. J. Marshall to represent it at the Grand Lodge meeting, which convenes in Richmond, Va., on Monday, 9th inst. Grand Secretary George Ziegler yesterday received letters from the entertainment committees of the local lodges of Richmond and Manchester saying that elaborate preparations are being made for entertaining the Grove. A large number is expected to attend from Wilmington, among whom are Deputy Grand Arch Julius Sternberger, and Past Arches S. Behrends, G. W. Linder, E. Poezolt, H. G. Sanders and others. Special rates have been secured from the Atlantic Coast Line extending from the 7th to 17th inst.

Young People's Social of St. Paul's.

The "Young People's Social Circle" of St. Paul's Episcopal church, was entertained on Friday night at the residence of Mr. and Mrs. Bert Cooper, Second and Nun streets. A very large number of the young people of St. Paul's were present and the evening was passed in a most enjoyable manner. Mr. and Mrs. Cooper and also the rector, who directed the exercises of the evening, did every thing in their power to enable those present to have a pleasant time. This organization of the young people of the congregation for social purposes, promises to be an exceedingly pleasant feature in the new life of St. Paul's.

Mr. Hanes Gets a Promotion.

Mr. Geo. T. Hanes, the clever and energetic manager of the Virginia Life Insurance Company in Wilmington, has received a deserved promotion in an appointment last week to the position of district supervisor of his company, with headquarters in Richmond. Mr. Hanes has been located in the city only little more than a year, but he has made hosts of friends who will regret to hear of his intended departure, but will at the same time felicitate him upon his rapid rise in the insurance field. He leaves Saturday.

May Sell Turnpike.

The annual meeting of the stockholders of the Wilmington and Coast Turnpike Co. will be held June 10th at the office of the company, Tenth and Chesnut streets. It is learned that at that time a proposition will be made to sell all or a part of the property to the county, which will make it a free causeway.

Graduated in Law.

Mr. Burgess Marshall graduated yesterday at the law school of the National University, of Washington, D. C., and received his diploma and degree of Bachelor of Law. He is still, however, in the government service.

The story of the game between Wilmington and Newbern yesterday afternoon may be told in few words. The score was 7 to 4 and the fatal inning this time—Wilmington always has one in which the disaster bobs up serenely—came in the eighth. When the visitors jumped on Dunn, the local curve dispenser, for three singles, one two base hit and two passes, which with a rank muff by McCann in right field, let in five runs, dampened the ardor on the bleachers and gave the game to Newbern beyond peradventure.

Prior to that spasm the game had been a fairly good one and the locals with a run each in the second, fifth, sixth and seventh had maintained a lead on the score that looked like a winner.

"Jimmie" Bass was on the slab for the visitors and was pounded merrily for twelve hits, but the erstwhile Giants couldn't bunch them and Newbern did. That's the story of a twenty-second almost consecutive defeat and here are the figures:

The Reconstructed Giants Will Be Back June Ninth.

— Each team made twelve hits, showing good stick work all around.

— The attendance was fully 350, which was mighty good, "considerin'."

— It was in the eighth eruption that the volcanic force of costly errors was made manifest.

— The sweet girl graduate is a daisy; but the rare and radiant rooterina is two of 'em.

— With the exception of his generosity with dead-head passes, Dunn pitched a good game.

— Raleigh will be here June 9th, 10th and 11th. Then comes Greensboro and Charlotte in succession.

— Hutton's stop of a hot liner to short was a feature. The little Pennsylvanian is "comin' up all the time."

— Devlin did his usual fine work at the bat for Newbern, making three hits out of four times at bat. One was a two-base and one a three-base hit.

— McGinnis led in the batting for Wilmington, making three hits out of five times up. Little Lattin made two out of four and Dommel two out of five.

— Second baseman W. J. Brown, who recently had his arm severely hurt in the game, was paid his salary yesterday and will leave to-day for his home in Baltimore.

— McCann, in right field, made three of the four errors charged to Wilmington. This was enough to lose the game, and brought forth a $5 fine from Acting Manager Gerken.

— On Monday, June 9th, the horse editor hopes to see on the Hilton diamond a team of reconstructed and rejuvenated Giants. A great crowd will be there to welcome them.

— The baseball editor is in receipt of a poem by Mr. Jack Hanna, of Roanoke, Va., dedicated to his friend, Ed. McGinnis, which is very good, but for Mac's sake it is not published.

— Manager Mace left at 7 P. M. last evening for Washington to engage several new men. He may be absent four or five days; but he will send new players to the team as fast as they are signed.

— Our boys play in Raleigh June 2nd, 3rd and 4th; in Greensboro the 5th, 6th and 7th. Then Wilmington comes home to play nine games. They will be accompanied to Raleigh this evening by Mr. Ray Kennedy.

Canvass for Subscriptions.

That there is a firm determination throughout the community to maintain a first-class club, properly managed, was evidenced by the action of the public spirited citizens named below, each of whom liberally donated to the cause at the solicitation of the committee two hours yesterday:

Roger Moore, Ed Taylor, D McEachern, Jesse Wilder, J L Croom, A M Hall, A W Simonds, Frank H Russell, Harry Stokley, E S Lathrop, W R Kenan, L Hanson, M A Kinney, Chas Goslee, J K Corbett, Z V Croom, J Allen Taylor, J F Whittaker, C W Worth, E J Woodward, C W Woodward, W B Cooper, W L Smith, D D Barber, H L Vollers, F E Hashagen, James Allen, N E Mahler, Ed Boushee, W H Moore, C McNair, A B McNair, Charles Haar, John Nixon, L B Sasser, H D Oldenbuttel, J D Steijes, E Walton, G F G Tiencken, C D Armstrong, J E Ennett, E B Haar, C D Morrill, D W Harvie, H T Dals, T J McInnerny, T B Carroll, W A McGowan, C T Harper, A S Bayles, Joe Lippitt, E P Boatwright, W V Hardin, J M Cazaux, W H McEachern, W W Staton, P L Smith, J H W Fuchs, Wm H Yopp, A P Adrian, W S Wishart, T J Gore, I W Solomon, J L Solomon, Albert Solomon, J H Chadbourn, Tony Hergenrother, The Seashore Hotel, Bonitz Hotel, Coal, Cement & Supply Co., Home Brewing Co., Globe Saloon, Yarborough & Murray.

The committee will continue its efforts for a few days next week and will see as many persons as possible. However, there will be some whom it will be impossible to see and all such are asked to either telephone what they will give to either member of the committee or leave same at Gerken's. Mace will reach Washington to-day and may get reinforcements to Raleigh in time for the first game there, but certainly for the Greensboro series Thursday, Friday and Saturday.

GOLD MEDAL AT EXPOSITION.

Holts' Mills Were the Winners Over Many Competitors—Handsome Compliment.

NEW YORK DRY GOODS RECORD, May 24.—The "Gold Medal" or highest prize has been awarded to the Holts' Mills Fancy Cotton Fabrics against all competitors for the best fabrics, styles, clearness of colors and other details of manufacturing by the Committee on Awards at the Charleston Exposition. The management of Holts' mills, as the worthy successors of the pioneers of cotton manufacturing in North Carolina, have a right to consider the award of the gold medal as the outcome of intellegent experience, practically applied. The notice of the "gold medal" award announced May 20th, was as follows:

CHARLESTON, S. C., May 20, 1902.
Holts' Mills, Nos. 53 and 55 Worth St., New York, N. Y.:

GENTLEMEN—We have awarded you the highest award "gold medal" for your exhibit for the various mills, and your cabinet flies the silk banner announcing the fact. I congratulate you.

R. M. MITCHELL,
Superintendent Cotton Palace,
Charleston Exposition.

The Holt mills are Delgado, Holt-Morgan, Holt-Williamson, Tolar, Hart & Holt, Elmira Cotton, Windsor Cotton, Lakeside, Glencoe, Alamance and Carolina.

Death of a Child.

A telegram last night to Mr. Willie McGirt announced the death in Fayetteville at 7:20 o'clock last evening of James Gilchrist, the little son of Rev. and Mrs. T. A. Smoot, who was aged one year and eleven days. The numerous friends here of Mrs. Smoot, who was Miss Leila McGirt, will deeply sympathize with the family in the bereavement. The remains of the little one will be brought to Wilmington for interment. The funeral hour will be announced later.

City School Affairs.

The city school committees for Districts Nos. 1 and 2 held a joint session Friday and re-elected Mr. John Jay Blair, superintendent for the ensuing year and the following to compose the school faculty: Miss Florina G. Worth, Mrs. Stephen Chadbourn, Miss Helen E. Mabry, Miss Sue Hall and Miss Wilson. All of them were re-elections except Miss Wilson.

— Mr. George G. Thomas, Jr. is at home from the University for the Summer.

BOARD OF MAGISTRATES FIX TAX LEVY MONDAY.

Meeting of New Hanover Justices at Noon Slight Increase Recommended by the County Commissioners.

The Board of Magistrates of the County will meet Monday noon at the Court House for the purpose of electing five commissioners to serve for the ensuing year and for the further purpose of fixing a tax levy for 1902-3.

The County Commissioners met last Monday and agreed upon a levy of 40 cents on the $100 real and personal property and $1.20 on the poll against 38 and $1.15 last year. The increase is imperative with the county and there will probably be little objection to adopting the recommendation of the commissioners at the meeting Monday. In a letter addressed to magistrates of the county for their consideration before Monday, these very logical reasons are given for the advance:

1st. Superior Court now includes criminal cases, and is very expensive as conducted, as in addition to above amounts given in last year's expenses, eleven hundred and two dollars has been paid and charged in this year's expenses for Court held November 26th, 1901.

2nd. The amount for public buildings is largely to provide for payment of one-half the cost of paving the streets adjoining the County property.

3rd. The Jas. Walker Memorial Hospital appropriation has been permanently increased by Act of the Legislature to $4800, and we also have to provide for payment of note for $3,400 to be, made to cover contribution to aid in furnishing the Hospital.

High License Favored.

The Board of Aldermen will meet Monday night and those who have watched closely the drift of affairs, say that a lively fight is ahead on the question of high liquor license. It is known that at a secret caucus of the Board Friday night, the subject was very exhaustively gone into. The high license proposition by the Aldermen is said to be a forerunner of something in the nature of a dispensary.

The Morning Star.

BY WILLIAM H. BERNARD

WILMINGTON, N. C.

SUNDAY MORNING, JUNE 1.

SAMPLE OF HUMBUGGERY.

Yesterday we quoted something from the platform of the Ohio Republicans, and made some comments thereon. The "soft-handed sons of toil" who bulit that platform claimed everything in sight as the result of Republican rule, but this is the customary thing for the Republican platform-makers to do. We here quote a few more extracts from the platform, which cover what we quoted yesterday with some other points not embraced therein, but all full of demagogy and all intended to fool somebody. It boasts of splendid diplomacy, pats capital and labor on the back and hits John Chinaman a swipe, thus:

"We congratulate the country upon a record of diplomatic achievement without parallel in our annals and which will forever redound to the credit of an administration, which, avoiding alliances and entanglements in its foreign policy, has kept steadily in view the glory of the American flag, the growth and spread of American commerce, the steadfast support and maintenance of American doctrines and traditions, and has wrought for the present and the future in the interest of world-wide peace and progress.

"No question now pressing for attention can be of greater importance than that which concerns the relations of capital and labor, and we pledge ourselves to the protection of these two servants of civilization. We welcome the investment of capital within our State, to the end that labor may be steadily and profitably employed in adding to the wealth and prosperity of our people. We believe with Lincoln that, 'capital is only the fruit of labor, and could never have existed if labor had not first existed. Labor is the superior of capital and deserves much the higher consideration.'

"To secure for labor the consideration it deserves; to uphold the dignity of toil; to create a healthy public opinion on the subject of labor and the justice of its receiving a full share of the values it creates; to bring labor and capital together on common ground in the adjustment of such questions as may concern these two great factors in production, it is necessary that labor should be intelligently organized. We believe in fewer hours and larger rewards for labor, and favor such laws as will harmonize the interests of labor and capital, and tend to lighten the burden of toil.

"In our last declaration of principles we favored a renewal of the wise provisions by which the unrestricted immigration of Chinese has been prevented, and we now commend Congress for re-enacting the Chinese exclusion law, thus insuring continued protection to American labor from Chinese immigration.

"We recognize the necessity of cooperation in order to meet new conditions in the industrial world, and to compete successfully for the world's markets, but all combinations that stifle competition, control prices, limit production, or unduly increase profits or values, and especially when they raise the prices of the necessities of life, are opposed to public policy and should be repressed with a strong hand."

Where is the "diplomatic achievement on which the country is to be congratulated?" Are any of its fruits visible save the mess in the Philippines? Will they call that dicker diplomacy, a land trade in which we bargained for a lot of islands, a war, about $600,000,000 out of pocket and the job not done yet? "It is without a parallel in our annals." That's true, for we never attempted anything like that before, and surely never will again.

But outside of the Philippines, where is the splendid achievement? Was it in soft sodering the British, and swapping adulation with them, because they pretended to be our friends during the racket with Spain, which it is said prevented some other nations from siding with Spain? If so, haven't we, as a nation, the first Republic on earth, paid a big price for that alleged British sympathy, which was inspired by British self interest? Great Britain is to-day the most isolated nation on the face of the earth. There isn't another nation that is friendly with her and not one that would not rejoice to see her humbled and crippled. She knows that, and therefore has been planning and playing for some years to win the friendship of this country, not because she has any great love for this country, but because she might utilize its friendship. All that talk about kinship, the same stock, etc., is mere rot, which means nothing and never did mean anything. There is no more, nor as much, kinship now than there was in the days of the Revolution, when England hired Hessians to shoot Americans and used savage Indians to make war upon them; nor is there more now than in the days of the war between the States, when she would have rejoiced at the dissolution of the Union and would have been one of first to play the role of friend to the established Confederacy. We swapped soft soder with the British, hailed her as "a friend in need," and therefore had to wear a muzzle when England, inspired by a lust for territory rich in minerals, made war upon the two Boer Republics. It is the first instance in our annals where this country has failed to send a message of sympathy to a people struggling for freedom or fighting in defense of the freedom they had. But Great Britain was our "friend" and hence we had to play mum, and besides that we were playing in the Philippines the same grab game the British were playing in South Africa. If that was an "achievement in diplomacy," we have paid a humiliating price for it. But this is "without a parallel in our annals." That is unhappily true.

It is almost amusing to note how these platform constructors are trying to carry water on both shoulders, pandering to the combinations and to the workmen of the country, in both of whom the Republican politicians profess a remarkable interest when elections are pending, in the former for campaign contributions; in the latter for their votes. The capitalists have no doubt of the interest Republican statesmen take in them, for that has been frequently shown by the legislation passed. Capital can get anything it wants from a Republican Congress, while labor never gets anything but cheap talk and promises in election times which are never kept.

The Republicans have been in control of this Government for the greater part of the time since the close of the war between the States. Did they ever inaugurate a movement to reduce hours of labor or increase the pay of workmen except in the case of Government employes in Washington, where the eight hour rule was adopted? Did they ever show any interest in organized labor labor, or proclaim the necessity of organization? But labor is organized now, pretty well organized too, which accounts for this professed interest in organized labor, and yet that kind of transparent demagogy may fool some workmen.

If the reason assigned for commending Chinese exclusion, that is to protect American labor from cheap Asiatic labor, (which never once occurred to them) be true, why not be consistent and give the American labor fuller protection by keeping out the cheap labor of other countries than China? Five hundred thousand immigrants arrive in this country annually. There will be more this year. Thousands of them enter into competition with American labor and cut down wages. Why not shut the gates on these, if these Ohio platform makers who show so much interest in the American workmen were honest and logical? But they are neither; they are simply playing the customary game of demagogy and deceit.

TO "STAY PUT."

The opponents of "criminal aggression" in the Philippines have not advocated a "scuttle" policy; they have not asked that this government do anything that would reflect upon its honor or its manhood; all they have asked is that it respect and observe the spirit of its pledge when the war began with Spain, and come out of the Philippines as it came out of Cuba. They simply ask this, and on the refusal to promise this they ask the opposition to say what they propose to do. The only answer to that demand is that the flag is in the Philippines and that it will, to quote President Roosevelt, "stay put."

Senator Hoar is a Republican who has no sympathy whatever with the Democratic party, but as a matter of right, principle, conscience and national honor, he is opposed to his party's course in dealing with the Philippines, and in his recent great speech drew the following contrast between the course pursued as to Cuba and the course that is being pursued in the Philippines. He said:

"1. For the Philippine islands you have had to repeal the Declaration of Independence.

"For Cuba you have had to reaffirm it and give it new lustre.

"2. For the Philippine islands you have had to convert the Monroe Doctrine into a doctrine of mere selfishness.

"For Cuba you have acted on it and vindicated it.

"3. In Cuba you have got the eternal gratitude of a free people.

"In the Philippine islands you have got the hatred and sullen submission of a subjugated people.

"4. From Cuba you have brought home nothing but glory.

"From the Philippines you have brought home nothing of glory.

"5. In Cuba no man thinks of counting the cost. The few soldiers who came home from Cuba wounded or sick carry about their wounds and their pale faces as if they were medals of honor. What soldier glories in a wound or an empty sleeve which he got in the Philippines?

"6. The conflict in the Philippines has cost you $600,000,000, thousands of American soldiers—the flower of your youth—the health and sanity of thousands more and hundreds of thousands of Filipinos slain."

* * *

"Was it ever heard before that a civilized, humane and Christian nation made war upon a people and refused to tell them what they wanted of them? You refuse to tell these people this year or next year or perhaps for twenty years whether you mean in the end to deprive them of their independence or no. You say you want them to submit. To submit to what? To mere military force? But for what purpose or what end is that military force to be exerted? You decline to tell them. Not only do you decline to say what you want of them, except bare and abject surrender, but you will not even let them tell you what they ask of you."

What a contrast! This is not a Democrat arraigning the policy of the opposition for party capital (assuming that this might be the motive), but a Republican, distinguished as one of the greatest of them, whose party loyalty has never been questioned, rebuking his party associates for their breach of faith, for their desertion of principle and for trampling upon the fundamental principles of the party to which they belong. It was a cutting rebuke and a grand appeal from "Philip drunk to Philip sober."

ANOTHER STRIKE OBJECT LESSON.

Yesterday, in speaking of the strike by the anthracite coal miners in Pennsylvania, we referred to how the public suffers from such strikes, suffers even more than the mine owners (who in the long run suffer very little if any) and the miners do, but the strike by the teamsters of the Chicago beef packers gives a more pointed one because it affects everyone directly. These teamsters have the co-operation of the teamsters of the ice companies and others, which practically blocks transportation and cuts off hotels, restaurants, boarding houses and private families, and puts them in a state of siege, where they may be starved if the strike lasts long.

With the beef packers, against whom the strike is, and the striking teamsters it is a matter of dollars, but with the public it is a matter of something to eat, which is more serious than a matter of dollars. It may be that this strike will extend to the other packing centers where the large meat houses do business, and thus millions of people will directly feel its effects.

Perhaps its just as well that it should be so for the greater the strain the sooner the break, and the more convincing the argument why some steps should be taken to prevent these strikes, which could always be prevented by timely concession on both sides. The public should not be made to suffer because of the disagreements of men who are frequently governed by their temper and refuse to listen to reason.

A wealthy farmer in Connecticut was visited a few nights ago by some burglars who gently intimated that they would like to know where he had his money. As he declined to gratify their curiosity they pummelled him, burnt his feet with a torch, threw him on a burning bed, and after all these pleasantries got only $18.

The Chicago *Tribune*, which keeps tab on calamities, figures out that so far this year 50,505 lives have been destroyed by volcanic eruptions, cyclones, floods, &c., not counting destruction by agencies over which man has control, such as fires, railroad, mine accidents, &c.

CURRENT COMMENT

—— General Miles apparently cares little about the reduction of his duties as long as his salary remains untouched. In time of peace the soldier's occupation is largely a matter of buttons.—*Philadelphia Record, Dem.*

—— It may be noted for the thoughtful consideration of farmers in the State who are now buying Western corn for their mules and cattle that alfalfa on the Exposition grounds that was planted only six weeks ago, on April 15, is now almost knee high, and as thick as weeds and growing like interest on a mortgage. And a dozen other forage crops in the same tract are doing as well. The exhibit is worth travelling many miles to see, and it will remain for some time after the Exposition closes.—*Charleston News and Courier, Dem.*

—— The rumor that the Passenger and Power Company of Richmond contemplates extending its lines as far as Greensboro, N. C., is an indication of what may be expected in the South in a few years. It would not be surprising if the whole South, where business will justify it, is covered with a network of electric lines in the next ten or fifteen years. The abundance of fine water-power and the increasing success of electric transmission of power will make this the more easily accomplished.—*Norfolk Virginian-Pilot, Dem.*

—— The Chicago Chronicle says the injunction brought against the beef trust by the government is precisely what the trust wanted, adding: "So long as the injunction prevails beef prices are bound to go up. Government by injunction protects the combine from indictment and trial by jury, which would subject guilty combiners to fine or imprisonment. Government by injunction is a delightful device for the perpetuation of combiners." Meanwhile the Republican party has it within its power to smash the combine by repealing the tariff on meats. But it is doing nothing in that direction.—*Savannah News, Dem.*

Saves Two From Death.

"Our little daughter had an almost fatal attack of whooping cough and bronchitis," writes Mrs. W. K. Haviland, of Armonk, N. Y., "but, when all other remedies failed, we saved her life with Dr. King's New Discovery. Our niece, who had Consumption in an advanced stage, also used this wonderful medicine and to-day she is perfectly well." Desperate throat and lung diseases yield to Dr. King's New Discovery as to no other medicine on earth. Infallible for Coughs and Colds. 50 cents and $1.00 bottles guaranteed by R. R. BELLAMY, druggist. Trial bottles free.

SPIRITS TURPENTINE

— Dunn *Banner*: The biggest tobacco crop is being raised in this section that ever has been before.

— Winston *Journal*: There have been eighteen deaths during the month of May. Of this number fourteen were colored and four were white.

— Winston *Sentinel*: Geo. Cash was yesterday acquitted of the charge of murder, killing Robert Goins, colored, on March 16th. The jury decided that the shooting was justifiable on the part of Cash; that he shot in self-defence.

— Wilson *Times*: In default of $200 for his appearance at the next term of court, Isaac Bullock, colored, was sent to jail Monday by Justices Wood and Keel for breaking into the house of Mr. Van Sharpe at night and stealing a fiddle from his trunk.

— Rocky Mount *Spokesman*: The American Telephone Company has completed its line to this point. They are building a line from New York to Jacksonville, Fla. They left New York since Christmas and hope to reach Jacksonville by September. They have put up six copper wires and have room for ten. They will have a central office here, and it is stated that a three minutes' talk with New York will cost $2.50.

— Lumberton *Robesonian*: We hear reports from different sections that crops are looking finely and the cotton, especially, very fine. Deputy Sheriff Barker, who travels all over the county, and who keeps an eye on everything pertaining to Robeson county's welfare, says that all around, everywhere he has been, he has noticed unusually fine crops.

— Wayne County *Advertiser*: The Fruit Growers' Express carried 1,250 car load of strawberries from North Carolina to Northern markets this season. The efficiency of the service is proven by the fact that the company had at all times nearly 200 cars between Goldsboro and Wilmington, over and above the number required to transport the berries, and at the wind-up of the season of 200 tons of ice remain in the icing stations.

— Smithfield *Herald*: Recent rains have greatly improved the crop conditions throughout the county and the prospect was never more encouraging at this season of the year. —— Beware of the use of Paris Green. We are informed that a little colored girl of the town has been at the point of death recently on account of having eaten apples that had received an application of the poison. —— The boom that struck Smithfield a few years since is with us yet. New residences are going up, tobacco warehouses are being enlarged, priseries and stemmeries are being erected and evidences of material growth indicate that the town is still enjoying a steady and conservative boom.

ARTIFICIAL BUILDING STONE

It Is Being Used More Extensively Every Year.

Artificial stone is coming into use more and more widely every year, says the Philadelphia Saturday Evening Post. For pavements it is rapidly supplanting all other materials, including brick and the natural article, and much of it is being utilized nowadays in the building of houses, newly discovered processes having so far improved the product as to render it actually more durable than real stone and in some cases quite as handsome.

There are several patented processes for the manufacture of sandstone, the raw materials employed being chiefly sand and lime in one shape or another. Granite is reproduced artificially by grinding ordinary granite to a powder, mixing it with clay and then subjecting molded blocks of it to the action of intense heat.

Imitation marble is obtained by mixing oxide of magnesium with chloride of magnesium, the former being obtained by burning the mineral called "magnesite" and the latter by treating the oxide with hydrochloric acid.

Artificial marble is also produced from ordinary plaster of paris hardened by an admixture of borax and certain other ingredients and agreeably colored with mineral oxides. For this purpose the oxides of iron and copper are sometimes employed.

Good Roads and Free Delivery.

According to a western paper, land in its section, along one of the newly established rural free postal delivery routes, has increased from $2 to $5 per acre. This is another argument in favor of extending rural free delivery, and it is indirectly an argument in favor of good roads.—Saratoga (N. Y.) Saratogian.

How to Clean Woolen Shawls.

Shetland shawls, if not very dirty, may be cleaned by rubbing them with magnesia and flour mixed in equal proportions, changing it as it gets dirty. This plan is also excellent for woolen shawls, provided they are not made of very heavy wool.

What's Your Face Worth?

GIVE US MEN.

BISHOP OF EXETER.

Give us men!
Men—from every rank,
Fresh and free and frank,
Men of thought and reading,
Men of light and leading,
Men of royal breeding,
Men of faith and not of faction,
Men of lofty aim or action,
Give us men—I say again,
Give us men!

Give us men!
Strong and stalwart ones;
Men whom highest hopes inspire,
Men whom purest honor fires,
Men who trample self beneath them,
Men who make their country wreathe them
As her noble sons
Worthy of their sires!
Men who never shame their mothers,
Men who never fail their brothers,
True, however false are others;
Give us men—I say again,
Give us men!

Give us men!
Men who when the tempest gathers,
Grasp the standard of their fathers
In the thickest of the fight;
Men who strike for home and altar,
(Let the coward cringe and falter),
God defend the right!
True as truth though lorn and lonely,
Tender—as the brave are only;
Men who tread where saints have trod,
Men for country and for God;
Give us men—I say again,
Give us men!

— All the keys that unlock the way out of all difficulties hang at God's girdle.

— Success depends much on our own efforts. Vegetation don't do well unless you keep the weeds out.

— With many the chief object in life is to make money and to cheat the devil out of his share of the spoils.

— I have long ceased to pray, "Lord Jesus have compassion on a lost world." I remember the day and the hour when I seemed to hear the Lord rebuking me for making such a prayer. He seemed to say to me, "I have had compassion on a lost world, and now it is time for you to have compassion."—*A. J. Gordon.*

— I will not quarrel with you about opinions. Only see that your heart is right toward God, that you know and love the Lord Jesus Christ, that you love your neighbor, and walk as your Master walked, and I desire no more. I am sick of opinions, and I am weary to hear them Give me solid and substantial religion; give me an humble, gentle love of God and man, a man full of mercy and good fruits, a man laying out himself in the work of faith, the patience of hope, the labor of love. Let my soul be with these Christians, wheresoever they are, and whatsoever opinions they are of. Whosoever thus doeth the will of my Father in heaven, the same is my brother and sister.—*John Wesley.*

A Bird That Sews.

The sewing or tailor bird of India is a little yellow creature not much larger than one's thumb. To escape falling a prey to snakes and monkeys the tailor bird, travelers say, picks up a dead leaf and flies up into a high tree and, with a fiber for a thread and its bill for a needle, sews the leaf on to a green one hanging from the tree, the sides being sewed up and an opening left at the top. That a nest is swinging in the tree no snake or monkey, or even a man, would suspect.

Too Much Bathing.

According to the London Lancet too much bathing is harmful, as it tends to "maceration of the superficial part of the epidermis, which is too frequently removed and occasions probably too rapid a proliferation of the cells of the malpighian layer." In spite of this portentous decision, however, it is safe to say that the mad Englishman will continue to stalk through Europe with his beloved tub, just as usual.

Canadian Roads.

In the cities and towns throughout Canada asphalt and vitrified brick have been adopted as the standard pavements, macadam on the leading county highways and gravel for the minor roads.

THE HORSE BREEDERS

Notwithstanding the fact that the exports of high class horses from the United States have been comparatively small, the fact remains that more of all equine sorts have left our shores during the season just closed than during any previous twelvemonth period, says Breeder's Gazette. The reason for this is, of course, the enormous purchases of cavalry, artillery and mounted infantry horses by various European governments. The British empire has been naturally our best customer, taking as many as 8,000 head out of the country at one shipment. Germany purchased large numbers on the Pacific slope early in the year, and the latest candidate for the favor of American auctioneers was the Italian government, which first had a small contract executed for plain artillery animals and later sent an enlarged order for both cavalry and gun horses. In addition to the horses taken for the use of John Bull in South Africa tens of thousands of mules were also purchased with good British gold so that not only should the export of horses prove the largest in numbers, but also that of mules.

Sugar For Horses.

In that excellent medical publication, The Sanitarian, we find that good results have been obtained by military surgeons from the use of large doses of sugar in relieving the great fatigue of army horses on forced marches, many of them in miserable condition having recovered their normal strength by the regular use of sugar mixed with their food.—Dumb Animals.

Frosty Bits.

"Take that bit and put it into cold water for a moment," was the command of a friend to his stable boy. "Why do you say cold water?" I asked in surprise. "Would not warm water be better?"

"Not a bit better, and I want to drill into these boys that any sort of water will take the frost out of a bit. Were I to say warm or hot water they would continue to put frosty bits into colts' mouths, and there would be sore mouths and a growing dislike to be bridled, and who can blame the colts?"

Good Old Horses.

Those who consider a carriage horse too old to buy at the age of ten may be shocked to learn that the combined age of three of the winners of championship ribbons at the national horse show this year is something like fifty years. Red Cloud, the heavyweight champion, is known to be nearly twenty years old. Lord Brilliant and Lord Golden, winners of the championships for pairs, are both old horses, having been kept in the stud several years before they were fitted for the show ring. Lord Brilliant is believed to be about seventeen, while Lord Golden is fourteen years old.

The Horse For the Farmer.

Speaking on the most useful horse for the farmer before the West Virginia Live Stock Breeders' association, Mr. C. E. Lewis said in part: The heavy horse has a signal advantage in some farm operations. In plowing or operating a manure spreader or hauling the crops to the barn or to market the heavy horse is just what is wanted, but in harrowing he does not have an advantage proportionate to his size. For drawing a mowing machine the lighter horse is better. Hitch a heavy horse to the shovel plow or cultivator and start him up and down the cornfield, with scarcely room between the three foot rows for him to put his ponderous feet, walking on two rows at once and breaking down more corn in each than a little horse could in one, and you will quickly decide that he was not made for that kind of work. Besides, to carry 1,000 pounds of surplus, useless horseflesh over the soft ground of the cornfield takes a great deal of energy, and that energy has to be supplied by an extra amount of feed. Then through the long winter months of idleness it requires a great deal of grain to keep the heavy horse's huge body in repair.

Tea Drinking.

The custom of tea drinking is as old as the Chinese empire, and as early as 780 A. D. a duty was levied on the tea that grew wild on the Chinese mountains. But it is within two centuries that its use was adopted by the English, when the East Tea company imported it and it was sold at $25 a pound. Its use was confined to the royal household. In the reign of Henry VII. a refreshment consisting of tea and cakes was called a voide.

On the occasion of the marriage dinner of Catherine of Aragon and Arthur, prince of Wales, the court chronicler wrote: "The evening refreshment called voide was brought in by fourscore earls, barons and knights, walking two and two. Ipocras and comfits were offered. One noble servitor presented the golden spice plate, a second the cups, while a third of lower rank filled the cups from a golden ewer."

Since then what Washington Irving calls the "motherly teapot" has become a power in the world.

Glass Street In Paris.

There has just been opened to the public of Paris a new street paved with blocks made by a new glass process. Contrary to the expectation of many, it affords an excellent foothold and promises to be without dust and not absorb waste. By the process the inventor is enabled to use all kinds of glass debris.

DEMOCRATIC PLAN OF ORGANIZATION.

1. The unit of county organization shall be the voting precincts. In each precinct there shall be an executive committee, to consist of five active Democrats, who shall be elected by the Democratic voters at the several precincts in the meeting first called by the county executive committee. And said committee so elected shall elect one of its members as chairman, who shall preside at all committee meetings.

2. The chairmen of the several precinct committees shall compose the county executive committee, which shall meet at the same time and place as the county convention first held in each election year, and elect a chairman of said county committee who need not be a member of the committee, and he shall preside at all meetings of said committee, and shall hold his place until his successor shall be elected. A majority of said precinct chairmen, in person, or by proxy, shall constitute a quorum. The county committee shall likewise appoint a central committee of five, who shall act in its stead when the county committee is not in session.

3. In case there shall be a failure on the part of any precinct to elect its executive committee for a period of thirty days, the county executive committee shall appoint said committee from the Democratic voters of said precinct.

4. The members of the precinct committee shall elect to any vacancy occurring in said committee.

5. The county executive committee shall call all necessary conventions by giving at least ten days' notice by public advertisement in three public places in each precinct, at the court house door, and any Democratic newspapers that may be published in said county, requesting all Democrats of the county to meet in their respective precincts on a common day therein stated, which said day shall not be less than three days before the meeting of the county conventions, for the purpose of electing their delegates to the county conventions. Thereupon the meeting so held shall elect their delegates to represent the precincts in the county convention from the voters of the respective voting precincts, which delegates, or such of them as shall attend, shall vote the full Democratic strength of their respective voting precincts on all questions that may come before said county conventions. In case no meeting shall be held in any precinct in pursuance of said call, or no election shall be made, the precinct executive committee shall appoint such delegates.

PRIMARIES.

6. At every precinct meeting there shall (before the delegates to the county convention are elected) be a vote taken for the different candidates for office, whose names may be presented and the delegates shall vote in the county convention of their respective districts in accordance with this vote; that is to say, each candidate shall receive in the county convention that proportion of the vote to which the precinct may be entitled which he received in the precinct meeting. The chairman and secretary of the precinct meeting shall certify to the county convention the vote received by each candidate at the precinct meeting.

7. Each precinct shall be entitled to cast in the county convention one vote for every twenty-five Democratic votes, and one vote for fractions of thirteen Democratic votes cast by the township at the last preceding gubernatorial election. Provided, that every voting precinct shall be entitled to cast one vote, and each precinct may send as many delegates as it may see fit.

8. The chairmen of the precinct committees shall preside at all precinct meetings. In their absence any other member of said committees may preside.

COUNTY AND DISTRICT CONVENTIONS

1. The several county conventions shall be entitled to elect to their senatorial, judicial and congressional conventions one delegate and one alternate for every fifty Democratic votes, and one delegate for fractions of over twenty-five Democratic votes cast at the last preceding gubernatorial election in their respective counties; and none but delegates or alternates so elected shall be entitled to a seat in said conventions: Provided, further, That in all county conventions in which delegates shall be selected to attend any State, congressional, judicial or other convention, a vote shall be taken in accordance with the plan of organization as to the candidates whose names may be presented to such county convention. The delegates shall be selected from the friends and supporters of each candidate voted for, in proportion to the number of votes he shall receive in such county convention and no other instruction shall be given: Provided further, That when only one candidate is presented and voted for at each county convention it shall be lawful to instruct for such candidate.

2. At every county convention (before delegates to State, congressional, judicial, senatorial or other conventions are chosen) there shall be a vote taken for the different candidates for office whose names may be presented and the delegates shall vote their respective counties in accordance with this vote, that is to say each candidate shall receive in the State, congressional, judicial, senatorial or other convention the proportion of the vote to which the county may be entitled which he received in the county convention. The chairman and secretary of the county convention shall certify to each convention the vote received by each candidate given: Provided, That where only one candidate is presented it shall be lawful to instruct for him. At all State and district conventions the delegates from the different counties may disregard the vote of their respective counties as to any candidate: Provided, That a two-thirds majority of all his votes from the county consent.

3. The chairman, or in his absence any member of the county, senatorial, judicial and congressional convention shall call to order their respective conventions and hold chairmanship thereof until the convention shall elect its chairman.

4. The executive committees of the senatorial, congressional and judicial districts, respectively, shall, at the call of their respective chairmen, meet at some time and place in their respective districts, and the chairmen of said respective committees shall immediately notify the chairmen of the different county executive committees of the said appointment and the said county executive committee shall forthwith call conventions of their respective counties in conformity to said notice to send delegates to said respective district conventions.

STATE CONVENTIONS.

The State convention shall be composed of delegates appointed by the several county conventions. Each county shall be entitled to elect one delegate and one alternate for every one hundred and fifty Democratic votes and one delegate for fractions over seventy-five Democratic votes cast therein at the last preceding gubernatorial election; and none but delegates or alternates so elected shall be entitled to seats in said convention: Provided, That every county shall have at least one vote in the convention.

Resolution passed at meeting of executive committee, November 30, 1897:

"*Resolved*, That in accordance with the resolution hereinbefore adopted, all white electors who intend to vote with us in the next election, and who desire the re-establishment of Anglo-Saxon supremacy and honest government in North Carolina are cordially invited to participate in all our primaries and conventions."

GENERAL RULES.

1. At all conventions the delegates shall be selected as near as may be from the friends and supporters of the candidates voted for.

2. Such delegates—or alternates of absent delegates—as may be present at any Democratic convention shall be allowed to cast the whole vote to which their precinct or county may be entitled.

3. In all conventions provided for by this system, after a vote is cast, there shall be no change in such votes until the final result of the ballot shall be announced by the chairman of said convention.

4. All Democratic executive committees shall have the power to fill any vacancies occurring in their respective bodies.

5. The chairmen of the different county conventions shall certify the list of delegates and alternates of the different district and State conventions, and a certified list of said delegates and alternates to the secretary of the State central committee.

6. It shall be the duty of the county committee and its chairman to furnish such information and make such reports to the chairman of the State committee as he may desire.

White Man Turned Yellow.

Great consternation was felt by the friends of M. A. Hogarty, of Lexington, Ky., when they saw he was turning yellow. His skin slowly changed color, also his eyes, and he suffered terribly. His malady was Yellow Jaundice. He was treated by the best doctors, but without benefit. Then he was advised to try Electric Bitters, the wonderful Stomach and Liver remedy, and he writes: "After taking two bottles I was wholly cured." A trial proves its matchless merit for all Stomach, Liver and Kidney troubles. Only 50 cents. Sold by R. R. BELLAMY, druggist.

THE INDEPENDENT ICE COMPANY.

Extends its thanks to the public for the very liberal patronage it has received since beginning operations six weeks ago. For a brand new enterprise starting in a field against well entrenched competition we feel justly proud of the business done thus far, but as the season has just fairly opened we wish to make a few remarks like these: "It shall be our aim to merit the continuous patronage of the public by dealing fairly and squarely at all times by weighing Ice as delivered—by offering a choice high grade, very hard frozen article free from impurities, by serving our customers promptly and in an accommodating spirit, and finally we promise that our prices shall be all right. If there is anything else we can offer the public, kindly let us hear from you.

Very truly yours for good hot weather.

The Morning Star.

WILMINGTON, N. C.

SUNDAY MORNING, JUNE 1.

PEACE TALK IN LONDON.

Preparations for Celebration on Monday. If Definite Announcement is Made of End of the War.

By Cable to the Morning Star.

LONDON, May 31.—If a definite announcement of peace in South Africa is made on Monday, as expected, that night will bid fair to rival the celebration which occurred when the relief of Mafeking was officially announced in May, 1900.

Throughout London arrangements have already been made for numerous peace dinners. The aristocracy will "maffick" on no small scale, and doubtless the denizens of White chapel and the various East End quarters will invade the Strand and other thoroughfares with their wild exultation.

For Monday afternoon every seat in the House of Commons is already preempted. If the statement of the government leader, A. J. Balfour, comes up to expectations, little will be done in the United Kingdom that day, except the exultation over the end of the war that has brought the spirit of the nation to its uttermost. Already the wiseacres are saying that Lord Kitchener will be made an earl and receive the thanks of Parliament, accompanied by a substantial grant of money.

One of the most curious features of the war is the remarkable way in which Lord Kitchener has deepened the awesome respect, akin to fear, with which the British nation regards him and his laconic reports, and his utterly independent prosecution of the campaign in South Africa has heightened his military reputation to such an extent that he has actually become a god to the average man in the street.

CHARLESTON'S EXPOSITION.

The Lights Turned Off and the Buglers Sounded Taps at Midnight.

By Telegraph to the Morning Star.

CHARLESTON, S. C., May 31.—At midnight President Wagener turned off the electric lights, the buglers sounded "taps," a salute was fired and the South Carolina Interstate and West India Exposition passed into history. The exposition opened on the first of December last and the six months of its existence have made a very brilliant season for Charleston. The first half of the time was not very prosperous for the affair, but during the last three months great crowds have visited it. It is stated the entire enterprise will be a loss financially and the stockholders will receive none of their subscriptions back. Some loss will probably fall on the bondholders and there are a few outstanding debts, though the showing in this respect will be much better than was predicted. Otherwise the success of the exposition is unquestioned. The last day was observed as Charleston Day and the attendance was large.

CAUSED SENSATION IN THE SENATE.

Remark by Senator Carmack Greeted With Hisses from the Galleries.

IN THE PHILIPPINE DEBATE.

Senator Spooner Concluded His Speech in Favor of the Bill—A Colloquy With Senator Hoar—Senators Pettus and Bate.

By Telegraph to the Morning Star.

WASHINGTON, May 31.—Hissing in the Senate is so unusual that when it occurred in the course of the Philippine debate to-day it created a sensation. Senator Spooner, of Wisconsin, was speaking and referred, incidentally, to the story that a thousand Filipinos had been put to death by American troops in trenches which they were compelled to dig. Senator Lodge, of Massachusetts, said the story had been denied by the father of the soldier who had started it, and that the War Department had cabled to General Chaffee to ascertain the facts. Senator Carmack, of Tennessee, interrupted to say that no doubt the soldier would deny the story, as all soldiers in the Philippines had been required to do. His remark was greeted with hisses from the galleries, the demonstration of disapprobation calling out a sharp rapping of the gavel from the chair.

Senator Spooner occupied nearly five hours of to-day's session in concluding his speech begun on Thursday. His eloquence and earnestness attracted the attention of all senators and of hundreds of occupants of the crowded galleries. He did not believe in the admission of the Philippines to the Union as States, but in the conduct of the islands nothing savoring of imperialism had been suggested except for party purposes.

"I have not been in favor of permanent dominion over the Philippines," said Senator Spooner, "but I don't mean by that that I have been in favor of the United States running away like a coward or abandoning a people who have come under our protection or surrendering them to tyranny, anarchy and chaos."

Senator Spooner declared that there was little or no similarity between the conditions in Cuba and those in the Philippines. "Those senators," he insisted, "who cannot see the difference between the Philippines and Cuba have some sort of mental strabismus."

"If Congress had recognized the independence of the Filipinos," said he, "instead of being there, as we are now, with a title which the Supreme Court of the United States says is complete, which the Senate has accepted as complete, which Congress paid for as complete, which the world recognizes as complete, which gives us the power to do what is generous and noble and right and uplifting to that people, we would be there on the shifting sands of a contract with a former tyrant."

Later, Mr. Hoar inquired whether the inhabitants of the Philippines were not a people, where there were millions of men, acting together, who raised an army, selected a general, turned Spain out of all territory except only the city of Manila and who had agreed upon a constitution, republican in form.

"They would be a people," replied Senator Spooner, 'if that were true."

"It is true," said Senator Hoar. "I deny it," insisted Senator Spooner. "I deny that there is any more than superficial truth in it." He referred to the Filipino army as a collection of miscellaneous persons who now constituted bands of bandits and cutthroats.

Seator Pettus, of Alabama, discussed some of the legal phases of the Philippine question, dealing with the powers of the United States and of the several States. He held that it was impossible for the United States to govern any territory not operated in accordance with the constitution of the United States.

Senator Bate, of Tennessee, said he sympathized with the efforts of the minority to get at the truth of the Philippine question, although he did not want to be put in the attitude of criticising the army.

Senator McLaurin, of Mississippi, declared that General Otis and General Funston has slandered the private soldiers in the Philippines, but he said that Democratic senators had not in any way slandered the army and that the charge itself was a slander.

At 5:15 P. M., the Senate took a recess until 8 o'clock.

During the progress of the evening session Senator Carmack, of Tennessee, took the floor. He said the debate had been carried on by the minority in the hope that the bill would be purged of its objectionable features. All hope of substantial amendment of the bill was abandoned. He scoffed at Senator Morgan's theory that the Filipino insurgents were the "tools of wicked conspirators at Hong Kong," saying that that was the dishonored plea of despots, the plea of conquest and murder and robbery in all ages. He proceeded in an exceedingly sarcastic vein to reply to some of Mr. Morgan's arguments. He said he did not know of a more dangerous doctrine than that advanced by Senator Morgan, that the army was more representative of the people than Congress. He did not believe that the United States had reached that stage of degeneration and decay when the custody of its liberties rested in the army.

Mr. Carmack referred to President Roosevelt's memorial address at Arlington yesterday, saying that he judged from what the President had said about lynching in the South, that that cry was to be the administration's favorite ground of defence of its policy in the Philippines. He had thought that the waving of the bloody shirt was an effort to revive sectional hatred. "But I admit I was mistaken," said he. "The Republicans used to keep the Southern outrages mill grinding, holding up our terrible and bloody deeds to the execration of mankind. That was for political purposes. Now, they are seeking precedents to excuse their policy in the Philippines. The President gives the cue. He says it is the same old rebel yell from the same old people who villified Grant and Lincoln as they are now villifying the great and magnanimous Smith. You cannot throw dust in the eyes of the people in that way. This attempt at diversion will not do. The question is: Are these accusations against Smith and those like him true or false?"

At 10:20 P. M. Mr. Carmack concluded and the Senate adjourned.

James A. Patten, Mayor of Evanston, and a prominent operator on the Chicago Board of Trade, brought to a successful close the corner in May oats, which has dominated the oats market since early last Fall. The profits credited to Mr. Patten on the deal are estimated at nearly $1,000,000.

U. S. SOLDIERS KILL FILIPINO OFFICIALS.

Denounced by the Governor of the Province in His Report as an Absolutely Unwarranted Murder.

By Cable to the Morning Star.

WASHINGTON, May 31.—The Secretary of War has transmitted to the Senate Committee on the Philippines a copy of a report made by J. G. Livingstone, governor of the Philippine province of Lorgoson, of the killing by soldiers of two native officials of the town of Santa Magdalena, of that province. One of the men was the presidente of the town, named Isidro Gallanosa, and the other a policeman. The secretary of the town, one Quintin Gamit, also was tortured for the purpose of forcing a confession from him.

Governor Livingstone says that a native who was trusted by the American authorities was sent to the town to spy out men connected with the movement known as the "anting-anting" movement; that he arrested some such men and took them with their papers before the presidente, and that while all were there a detachment of troops under a corporal entered and arrested all as insurgents. They were then taken before Lieutenant F. W. Harker, of the Fifteenth Infantry, who put them to work on the streets. The report continues:

"The next day the presidente and Gamit were taken out in the woods and hung until their feet were nearly off the ground and were asked if they would "talk," to which they replied that they would, naturally. They were returned to Malnog, where the secretary was again questioned by Lieutenant Harker as to the conduct and character of the presidente, giving, according to his (the secretary's) statement, satisfactory answers. He was returned to the jail and later he, with the presidente and Ciraco Funes, a policeman of Magdalena, were again taken to the hills; being compelled to carry a rope a pick and a spade and on reaching a certain spot, the presidente was put to work digging what would appear to be a grave. Then the presidente was bound and shot in the back. The secretary states he saw of all this himself and also the policeman bound in the same way, and a littlel ater heard shots which he presumed were fired at the policeman, as he was also killed.

The report also says, "It is claimed that the presidente and policeman attempted to escape, and the soldiers concerned have made affidavits to this effect; but I believe this to be absolutely untrue."

Governor Livingstone concluded by giving his own opinion of the case as follows:

"Upon careful consideration of the whole question, from my knowledge of the conditions existing at the time and from my personal knowledge of those most directly concerned, I am forced to the opinion that the organization organized for the arrest of these men was absolutely unwarranted, possibly due to malinterpretation and over-zealousness on the part of the corporal; that the two persons killed did not attempt to escape, and that their killing was murder."

Enclosed with the Governor's report are affidavits of the private soldiers who shot the presidente, and also an affidavit from a native prisoner saying that the presidente had allowed him to escape for pay. There is also a report upon the case by Captain E. Wittenmeyer, of the Fifteenth infantry, as follows:

"I wish to call your attention to the fact that at the time this occurred some 400 prisoners had been captured, most of whom were members of the anting-anting society, and I have no doubt that this presidente was a member of this gang. It is a fact that cannot be disputed that a company of anting-antings, from St. Magdalena, was in the fight at Gati, September 7th, and some of their wounded were cared for by this presidente and his subordinates. There is no doubt in my mind but that he was guilty of inciting and sustaining insurrection and opposition against United States forces."

A SHOCKING FATALITY.

Carriage Struck by a Railroad Train--Two Children Killed and Four Other Persons Badly Injured.

By Telegraph to the Morning Star.

GREENVILLE, PA., May 31.—A shocking fatality occurred at a railroad grade crossing near Sugar Grove, six miles east of here, this evening, which will result in the almost blotting out of one family and the maiming for life of every member of another. The dead are Ethel McClure, aged 7 years; Bettie McClure, aged 12. Injured: Mrs. Charles McClure, who the physicians say cannot live through the night; John W. Owens, aged 50; Mrs. John W. Owens, ear almost severed, entire cheek torn open and badly bruised; Mary Owens, aged 12, bruised and shaken up.

The party occupied a double seated carriage on their way to visit relatives at Jamestown, Pa. The scene of the accident is midway on a steep grade and on a stretch of track where the trains attain great speed. The carriage was struck by train No. 3, which was running about sixty miles an hour. Mrs. McClure and her two daughters occupied the rear seat and received the full shock of the collision. The two little girls were dead when picked up and the mother unconscious from terrible wounds.

NAILED TO A TREE.

A Farmer Near Berkeley, Ala., Assaulted and Robbed by Two Men.

By Telegraph to the Morning Star.

HUNTSVILLE, ALA., May 31.—Tom Harless, a farmer, living near Berkeley, was assaulted and robbed by two men late yesterday afternoon and then nailed to a tree. He was rescued alive, but his hands were badly torn and he will not be able to work for several months. Harless had been plowing and was eating his dinner at a spring when he was confronted by two armed men with pistols, who robbed him of four dollars and then backed him against a tree. The loose folds of flesh on each side were pulled out and nailed to a tree and his hands were stretched above his head and treated likewise. In this condition the man remained until dark, when he was rescued by a farm hand.

ARMY REORGANIZATION.

Order Issued Reducing the Total Strength to 66,497 Men.

By Telegraph to the Morning Star.

WASHINGTON, May 31.—By direction of the President, Secretary Root has issued a general order decreasing the strength of our permanent military establishment and changing the ratio of its make-up, as provided in the general order issued last May to carry out the army reorganization law. Under the general order of last May, the total strength of the army was fixed at 77,287 men. The order issued to-day reduced this figure to 66,497—a reduction of 10,790.

CHICAGO STRIKE TROUBLE GROWS.

Teamsters of Department Stores Join the Stock Yard Men in Their Strike.

SERIOUS TROUBLE FOR HOTELS

Ice Wagon Drivers Refuse to Deliver Ice. Meat Supply Shut Off from Charitable Institutions—Strikers Demand Higher Wages, Etc.

By Telegraph to the Morning Star.

CHICAGO, May 31.—The teamsters' strike to-day spread to the department stores. Eighty-nine men working for the Fair struck, and it was stated that 400 more men, employed by other big down town stores, would be out by to-night.

The effect, it is said, will be practically to shut off the delivery of goods to customers and the bringing in of new stock. The Department Store Teamsters' Union was recently formed, and is affiliated with the national organization on the same footing as the one at the stock yards. The men make the same demand as do the packers' teamsters for better hours, higher wages and recognition of the union.

Police were called to guard the Fair. Jacob Kessner, the manager of the establishment, attempted to address the teamsters. Their business agent, however, told Mr. Kessner that he would have to talk to the men's agent, and that he could not talk to the men.

"I don't recognize you," said Mr. Kessner.

At this the business agent blew a whistle and the teamsters to a man quit work, leaving a large guard of pickets, however, to look after their interests.

Serious trouble began for down town hotels and restaurants to-day when members of the ice wagon drivers and helpers' union refused to deliver ice to the Great Northern Hotel, the Palmer House, Kinsley's restaurant and the Heusner Baking Company. The management of the Auditorium Hotel and annex was also notified that no ice would be delivered after to-day if meat from packers who have not signed the union agreement was used by the hotel.

Business agent Flynn, of the ice wagon drivers and helpers union, said the members of his organization were determined not to deliver ice to hotels and restaurants that buy meat of the proscribed packers.

About 2,000 men and boys in the Bridewell and the John Worthy reform schools will be without meat tomorrow, according to a statement today by Supt. Sloan. Mr. Sloan held a conference with his supply house today and was told that the situation appeared to be hopeless. These institutions have been using half a ton of meat a day. Mr. Sloan to-day purchased ten tons of beans and 1,500 pounds of oatmeal in anticipation of the meat famine. The teamsters are allowing the packers to take meat to the hospitals.

COAL STRIKE SITUATION.

More Men Sworn In for Guard Duty at the Mines—A Clash With Strikers.

By Telegraph to the Morning Star.

HAZLETON, PA., May 31.—Commissions were received here to-night for 870 officers, who were sworn in for special guard duty at the collieries in the Hazelton district, beginning Sunday night. About three hundred special officers were commissioned earlier in the week.

At least one hundred men, who came here presumably to take the places of the striking firemen and engineers and to act as deputies, arrived late to-night from Philadelphia.

Shortly before midnight a crowd of three hundred strikers gathered about a restaurant where the non-union men were eating, and when the latter left the place, the angry mob jeered and hooted them. For a time it looked as though there would be trouble, but the new men reached their hotels without being subjected to violence.

SENATOR EARLE'S SCHEME.

How He Would Secure Good Roads In This Country.

The unique figure in the "good roads world" is State Senator Earle of Detroit. He was at one time connected with the department of good roads inquiries at Washington as an expert, which office he was obliged to relinquish upon his election to the senate. He has a scheme which if put into practice would soon bring the millennial dawn of good roads, says the Philadelphia North American. In explaining his scheme he said:

"First, I would have the government make good road maps of each county in the United States, showing all the public highways. I would have bad roads printed in red, fairly good ones in blue and the improved roads in black. These would be published in pocket form and sold for 5 cents each at all postoffices. This would in effect compel every farmer to see to it that his road was improved, for he would soon see the advantage of having his farm located on one of the improved roads.

"Second, I would levy a tax of 50 cents a year on every vehicle in the land. This alone would yield an annual revenue of several millions. It would furnish all the funds necessary for the purpose. The tax would be a trifle and would be cheerfully paid by most people so long as it was to be devoted to the betterment of highways."

ANOTHER ERUPTION IN MARTINIQUE.

Mont Pelee Pouring Out Great Torrents of Mud, Steam and Ashes, With Loud Detonations.

By Telegraph to the Morning Star.

FORT DE FRANCE, ISLAND OF MARTINIQUE, May 31, 7 P. M.—The United States steamer Dixie arrived here from St. Vincent last night and left early this morning for New York.

At half-past 1 o'clock yesterday afternoon the submarine cable broke again and at 2 o'clock Mont Pelee was in violent eruption. Reports received here say the north craters are pouring great torrents of mud in the direction toward Vive. Yesterday evening there was an enormous eruption of steam and ashes. This morning a correspondent of a New York newspaper went to St. Pierre with the government party engaged in burning the bodies of the victims of the first eruption, but the party was forced to leave, the volcano throwing out volumes of black smoke, and loud detonations being heard. The Rivere Blanche is again the course of a torrent of intensely hot mud, giving off steam and falling into the sea. A portion of the party which went to St. Pierre this morning was in considerable danger, and the captain of the boat which took the newspaper correspondent and his companions to the ruined town says he will not return there again.

The re-establishment of business in Fort de France is restoring confidence and the work of reliving the distress in distant districts in being effectively carried out by a perfect organization.

GREAT SHOEMAKERS.

George Fox's Suit of Leather and Ros[illegible] er Sherman's Common Sense.

Carlyle said that one of the most remarkable incidents in history was that of the making of George Fox's suit of leather. He made it himself. The man, the first of the Friends, and by trade a shoemaker, was one to whom the divine ideal of the universe seemed to be manifested. Fox made shoes until he became so interested in the books he had studied that he could not hold himself in check. He had to preach. He had no clothes fit to wear, so he made himself a leather suit that would withstand years of wear. Carlyle wrote, "Let some Angelo or Rosa picture George Fox on that morning when he spread out his cutting board for the last time and cut cowhides by unwonted patterns and stitched them together into one continuous all including case, the farewell service of his awl."

"Roger Sherman never said a foolish thing in his life," said Thomas Jefferson. "Roger Sherman had more common sense than any other man I ever knew," said another eminent man. "When I come in late, and do not know which way to vote," said Fisher Ames, "I ask how Sherman voted. He always votes right." Sherman was one of the signers of the Declaration of Independence. He was a shoemaker until he was twenty-one years old. People used to point out where he sat, where he worked and studied, and where he could set his book so that he could glance at it in the interval of the work of the hammer and the awl. Of his connection with the "gentle craft" he was never ashamed. He declared in congress against a certain contract for shoes. "The charges are exorbitant," he said, which fact he proved by specifying the cost of the leather and the materials and of the work. The minuteness with which this was done excited surprise, and then he said to the committee, "I am by trade a shoemaker." Yes, a patriot and shoemaker he was, and in both capacities he was pre-eminent for common sense.—Success.

How About That Tackle?

The blue birds are with us again. The streams and ponds are warming up. The fishermen should be looking up their outfits. Seeing if anything is wanted before the last minute.

As of old we are showing the finest things to tempt the fish kingdom and make the sport more sporty for the anglers.

Lines may be wanted; poles must be needed; hooks are very necessary, and in fact we have everything that is required to make a complete outfit.

To those that are interested in the sport, to those others that may not be so enthusiastic, we would consider it a favor to have all come in and look.
